

Microtonal Max/MSP patch

Megan Steinberg

1. Open patch
2. Enter number of notes (1-10) you want in a chord in 2nd box under keyboard
3. Either select notes on keyboard or enter Hz amount in boxes above sliders
4. Press the Audio On button
5. Use sliders to change volume of each pitch
6. Press clear to reset

Note - you can only select a number of pitches on the keyboard that relate to the number of notes you've entered in step 2

If you're working in cents there are calculators to convert online
